Onderwijs en onderzoek Tandwielen Handleiding

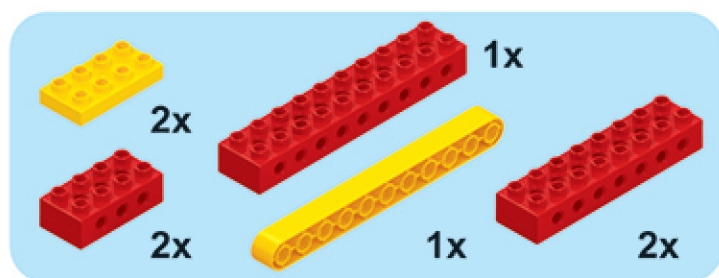

Inleiding

De educatieve tandwielbouwstenen-serie is speciaal ontworpen voor kleuters. Het product maakt gebruik van bouwstenen als drager, heeft wetenschappelijke kennis als thema en gebruikt constructieve activiteiten als methode om de interesse en nieuwsgierigheid van kinderen te prikkelen, hun observatievermogen, aandachtsvermogen en verbeeldingskracht te ontwikkelen, hun creatieve persoonlijkheid te helpen versterken, ¹⁹ en hun creatief denken en creatieve vaardigheden beter te laten ontwikkelen.

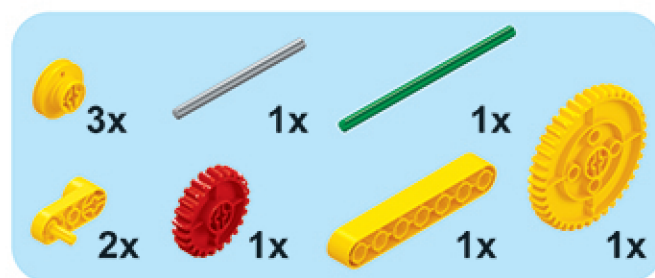

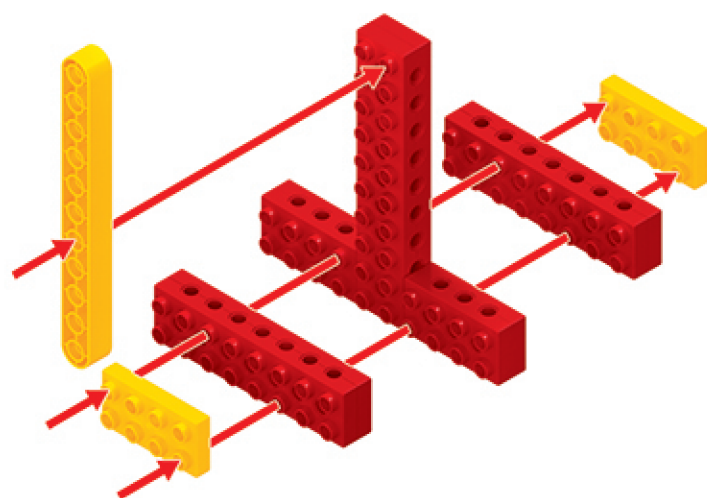

Dit product kan zowel in de kleuterschool worden gebruikt voor spel, als in combinatie met bouwblokken in lessen onder begeleiding van de leerkracht, en is tevens geschikt voor interactieve spelletjes tussen ouders en kinderen thuis, waarbij onder begeleiding van de ouders de alomvattende ontwikkeling van de vaardigheden van het kind wordt bevorderd.
