

SOLAR SYSTEM CRAFT PAPER

R15285

Featuring beautifully illustrated, double-sided designs of the planets, this heavy-weight paper is perfect for creating planetary models, collages, mobiles, and posters. Whether you're introducing students to the vastness of our universe or diving into astronomy lessons, this versatile craft paper makes learning about our solar system both engaging and fun. Ideal for classroom projects or at-home learning, it's the perfect tool to inspire a love for space exploration and science.
