

Subject: REACH and SVHC Compliance Declaration - CARIOCA S.p.A.

Dear Sir/Madam,

We hereby confirm that CARIOCA S.p.A. is fully committed to ensuring compliance with all applicable European Union regulations regarding the safety and environmental standards of our products, specifically Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and the Candidate List of Substances of Very High Concern (SVHC).

Depending on the origin and lifecycle of our products, our regulatory status and compliance measures are structured as follows:

1. In-House Manufactured Products:

For products manufactured internally, CARIOCA S.p.A. acts as a “downstream user” under the REACH Regulation. Based on declarations received from our raw material suppliers and occasional random sample testing, everything is fully compliant with REACH and SVHC requirements.

2. Commercialized (Traded) Products:

For products commercialized under our brand, we act primarily as an “importer” in the majority of cases. To ensure strict compliance, we rely on supplier declarations and occasional random sample testing to guarantee conformity with the limits set forth in REACH Annex XVII and the SVHC Candidate List.

Furthermore, careful control and monitoring of the quantities of imported substances allow us to respect the prescribed limits or ensure that any necessary registrations are duly covered. CARIOCA S.p.A. constantly monitors updates to the ECHA (European Chemicals Agency) candidate list and REACH regulations to maintain continuous compliance and product safety for our customers.

Yours faithfully,
Settimo Torinese, 13/10/2026
