

A game of construction, not destruction !

Like most toys in the world, inouqa is not indestructible. Unfortunately, the risk of breakage does exist...

Of course, we have designed it to be as durable as possible. And, we promise, it is, but only if used with the right attitudes.

Your units are precious and worth a certain price. We are sure you value them and want to keep them functional for a long time. That is why it is important to follow basic rules and educate any children who might play with them.

As a reminder, we will exchange potentially defective units within the legal 14-day period (complaint form on www.inouqa.com). After that, their condition and longevity are your responsibility, and we will not be obliged to replace them.

1. take care of your units
2. follow our advices for use

Be reasonable, measure excitement !

! take care of your units !

walking on units flat...

...stacked...

...loose and wobbly

getting inside constructions

climbing constructions

bending / folding units

hitting / throwing units

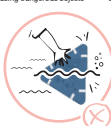

using dangerous objects

collapsing high constructions

damaging connectors

immersing units

leaving outside
