Blue Finn

Bluewrap.

Vanwege de recyclede samenstelling van het materiaal kunnen per productiebatch kleurvariaties optreden. Rug en zitting van één stoel hebben altijd dezelfde tint donkerblauw.

Bluewrap.

Due to the recycled composition of Blue Finn, colour variations may occur per production batch. However, the back and seat of one chair are always the same shade dark blue.

Bluewrap.

Aufgrund der recycelten Zusammensetzung von Blue Finn kann es je nach Produktionscharge zu Farbabweichungen kommen. Rückenlehne und Sitzfläche eines Stuhls haben immer den gleichen Farbton dunkelblau.
