

Polyethylene Cabinet for Corrosive Chemicals

Polyethylene Classic Safety Cabinet

Corrosives Safety Cabinets - Polyethylene and Modular Quick-Assembly Cabinets

Polyethylene Cabinet for Corrosive Chemicals

Completely metal-free poly cabinet—never worry about rust again

- For strong acids such as hydrochloric, sulfuric, nitric acid; or bases such as sodium, potassium, calcium hydroxide
- Durable HDPE (high-density polyethylene) for chemical resistance
- Shelf adjusts on 76-mm increments with a 57-kg load capacity
- Removable sump cover serves as a bottom shelf, concealing the integrated, 32-L capacity leakproof sump
- Use for stand-alone storage for access to grooved top surface or expand capacity by stacking two cabinets
- When used under a counter, recessed toe kick provides improved ergonomics
- Four pre-formed, rear vent locations provide a guide for an aftermarket vent kit (not included) if a pressurized vapour removal system is required

Colors:

- Blue

Sizes:

- 91.4cm x 88.9cm
