

Rigid-Lock Quickberm[®] Lite

Lightweight flexible spill containment berm

Rigid-Lock Quickberm® Lite

Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems

Lightweight, portable, versatile containment berm deploys quickly for emergency spill response.

- Tough EnGuard™ I PVC coated fabric provides broad UV and chemical resistance that withstands repeated usage
- Patented Rigid-Lock wall supports maximize usable space inside the berm and greatly reduce any tripping hazard around the perimeter. Stainless steel braces support wall at 90° locked position for secure, leakproof containment
- Folds down easily to a small size for storage in trucks, emergency vehicles, and spill kits
- Optional grates to help reduce contact with contaminated liquids by personnel or equipment

- Indoor/Outdoor
- For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
- Light duty

Recommended use

Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems Rigid-Lock Quickberm® Lite

General

Brand	Justrite
Category	QuickBerms® Flexible Spill Containment Systems
Product Number	2837
Product Family	Spill Control & Environmental
Product Group	Flexible Spill Containment
Industry	Industrial, Material Handling, Power Generation, Construction, Manufacturing, Automotive
Product Name	Rigid-Lock Quickberm® Lite
Recommended use	For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
Shipping Location	Achterzeedijk 57, Unit 15, Barendrecht 2992SB, The Netherlands
Update trigger	20210310-1301
Usage Intensity	Light duty

Sustainability

REACH	Reach compliant (Registration, Evaluation, Authorization and Restriction of Chemicals).
Rohs EU	Rohs compliant (Restriction of Hazardous Substances).

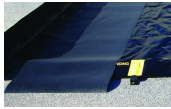

Technical Specifications

Application	For storage of drums, tanks or leaky equipment.
Material	Modified PVC coated fabric
Material Group	PVC

Accessories

2833

Track Mats

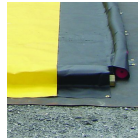

Thick durable, the black woven fabric protects the floor and walls from tire abrasion caused by skidding, turning, and braking.

2834

Track Runners

High visibility, yellow vinyl fabric for inside berms offers moderate protection against abrasion.

2835

Ground Mats

Create a smooth, uniform deployment area with this heavy-duty woven fabric.
