

Rigid-Lock QuickBerm®

Durable drive-in spill containment for drums, IBC totes, and tanks

Rigid-Lock QuickBerm®

Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems

Durable drive-in spill containment for drums, IBC totes, and tanks

- Modified PVC coated fabric is suited for placing heavy materials within the working space, occasional drive-in or –out scenarios and pedestrian traffic
- Chemical resistant and withstands long-term UV exposure— great for outdoor use
- Patented Rigid-Lock integral stainless-steel wall-support system is 30 cm deep and locks at 90° for secure, leakproof containment
- Single-piece construction – patented Rigid-Lock wall-support system integral to berm provides unobstructed work space
- Quick and easy setup – no assembly required
- Integrated holes permit easy anchoring under high wind conditions, anchor stakes not included

- Indoor/Outdoor
- For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
- Medium duty

Recommended use

Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems Rigid-Lock QuickBerm®

General

Brand	Justrite
Category	QuickBerms® Flexible Spill Containment Systems
Product Number	2851
Product Family	Spill Control & Environmental
Product Group	Flexible Spill Containment
Industry	Power Generation, Construction, Manufacturing, Aviation, Automotive, Laboratories, Industrial, Jan-San, Material Handling
Product Name	Rigid-Lock QuickBerm®
Recommended use	For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
Shipping Location	Achterzeedijk 57, Unit 15, Barendrecht 2992SB, The Netherlands
Update trigger	20240229
Usage Intensity	Medium duty

Sustainability

REACH	Reach compliant (Registration, Evaluation, Authorization and Restriction of Chemicals).
-------	---

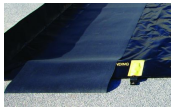

Technical Specifications

Application	For safe outdoor storage of IBC containing chemicals, flammable and hazardous liquids.
Drive In	True
Material	Modified PVC coated fabric
Material Group	PVC
Pile Weight (g)	900
Process	Welding
