Measurements

Total area (m2) _____
Number of sections _____

Attach technical drawing or sketch and measurements for each section.

Cutting Instructions

Cutting instructions

- Cut exact measurements
 Do not cut through holes

On Site Installation Service

On site installation required Yes No
Date _____ Daytime Nighttime Weekend

Used Product Removal

Removal and Disposal of Existing Mats Yes No
Total Area (m2) _____

Product Selection

Section Reference _____

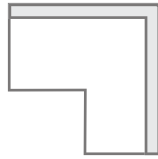

Product _____

Include Accessories Safety Bevels Safety Lines Curves

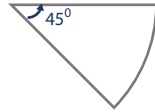

Technical Sketch

Mats & Bevels

Curves & Angles

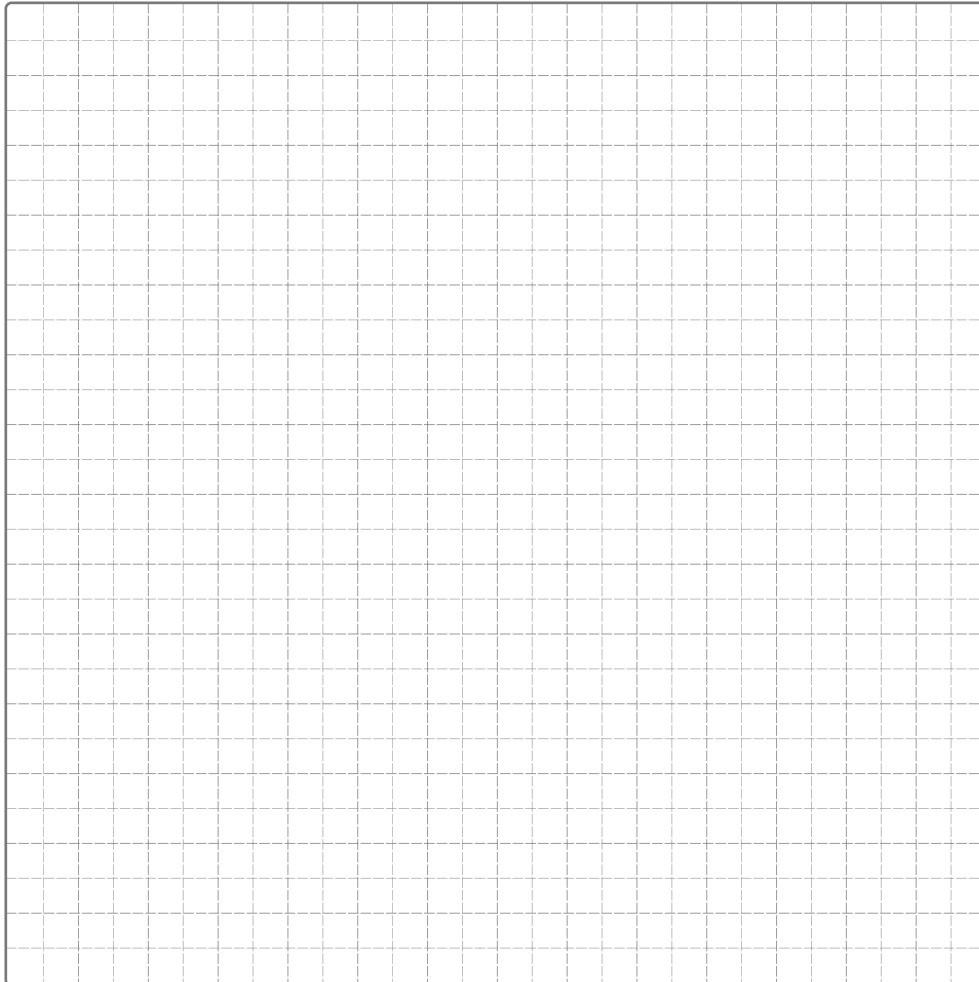

Existing Objects

Immovable Objects
Mat must be cut to fit. (e.g. walls or machinery)

Movable Objects
Mat can extend slightly underneath if necessary.
(e.g. worktables, conveyor belts)

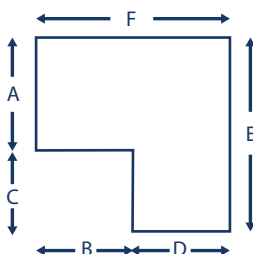

When measuring the area for your mat, extend the mat to go under a workbench / table.

Bevelled safety ramps can be added where workers step onto or off of the mat to prevent tripping and allow easy access for things such as carts or trolleys.

Adding bevels will increase the size of your mat as the inclusion of bevels, depending on the type, adds between 5 cm or 15 cm.

On your drawing please indicate where machinery and table legs are as they may need to be cut on-site.
