

MambaMAT™

Ergonomic and reliable ground protection: MambaMAT.

MambaMAT™

Ground Protection Matting - Medium Duty Ground Protection Matting

MambaMAT ground protection mats are designed with an ergonomic design with hand holes, reliable 5-bar tread for traction, and a 95-ton load capacity. These mats offer unrivaled durability to protect your property for long-lasting ground protection.

- Ergonomic orientation with 8 standard hand holes significantly improve the ease of handling, save time and enhance productivity.
- Designed to support weights of up to 95 tons.
- Reliable pedestrian traction minimizes the likelihood of slips, falls, and other work-related accidents, preventing potential injuries and subsequent legal liabilities for businesses.
- Flexible construction follows the contours of the ground, delivering a highly effective access solution on sloping or undulating ground conditions.
- Manufactured from 100% recycled high-density polyethylene,
- Durable and weather resistant.

- Outdoor
- For use in construction, landscaping, utilities, events, agriculture, and industrial sectors, Checkers ground protection matting provides a durable surface for equipment and traffic, protecting terrain, creating temporary roadways, enhancing safety, and improving efficiency in various conditions.
- Medium duty

Recommended use

Ground Protection Matting - Medium Duty Ground Protection Matting MambaMAT™
