

Water-Filled Drain Covers

Water-Filled Drain Covers

Water-Filled Drain Covers

Spill Control & Environmental -

Ensure regulatory compliance and prevent run-off pollutants from entering storm water drains.

- Deploy cover as a preventative measure to seal drains before washdowns, maintenance, or other clean up tasks
- Long-lasting durable modified vinyl construction resists damage caused by UV rays
- Features easy-open push plug for filling with standard water hose
- Order a cover size that overlaps drain opening at least 152-mm on each edge. To prevent edges from losing contact with ground surface, do not fill over 127-mm in height

Spill Control & Environmental - Water-Filled Drain Covers

General

Brand	Justrite
Product Number	2847
Product Family	Spill Control & Environmental
Product Group	Spill Control & Environmental
Industry	Construction, Laboratories
Product Name	Water-Filled Drain Covers
Update trigger	20210310-1301

Technical Specifications

Material Group	PVC
