Angle Bracket Quickberms

Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems

The Angle Bracket QuickBerm® secondary spill containment berm is light enough to carry but tough enough for heavy use in outdoor and challenging environments Designed for static setups, it's ideal for applications where minimal movement is needed.

- Best for applications with limited need to vehicles drive in/out, such as storage for transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations, chemical totes, and other equipment offering versatile solutions for containment requirements.
- Angled L-brackets provide sturdy sidewall support and are made of galvanized coated wire bracket using less metal with the same strength that are lighter, easier, safer with less risk of puncturing the berm fabric during transport and installation.
- Top 2.5-cm hem adds strength and prevents wall sag reinforced Most flexible spill berms feature a one-piece or minimal seam design, reducing potential leak points and enhancing containment integrity.
- Fuel and chemical-resistant geomembrane liner is designed to withstand contact with a wide range of chemicals, fuels, oils, and hazardous materials, ensuring compatibility with diverse storage needs.
- Quick and straightforward installation by simply slipping angle brackets into slots without the need for specialized tools or equipment.
- Arrives folded for easy shipping, transport and storage.

- Indoor/Outdoor
- For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
- Heavy duty

Value proposition	BCl's / Justrite's New Angle Bracket QuickBerms offer Site and Safety Managers the widest selection of affordable secondary spill containment solutions to satisfy just about any application. Like all of our QuickBerms, installation ease and safety are at the heart of our design. By using rounded-edge angle brackets, installation is simpler and faster than flat L-bracket alternatives, as our rounded-edge brackets won't bind or tear the berm when inserted into the sleeves. Unlike flat L-bracket designs, our angle brackets are more fully enclosed within their sleeves, so you're assured of a more reliable structure, and a safer, trip-free installation for the crew working around it.
