

Painted Steel Spill Pallets for Safe Indoor Storage of Drums

Painted steel spill pallets for drums

Steel Spill Pallets For Drums - Chemicals & Hazardous Materials

Painted Steel Spill Pallets for Safe Indoor Storage of Drums

Drum spill pallets are designed and tested for the safe containment of hazardous and polluting liquids. Made of carbon steel, the spill pallets can be equipped with an optional internal tank made of polypropylene, polyethylene, or PVC on request.

- Made of powder-coated steel
- Removable hot-dip galvanized grating, edged and self-supporting with high load-bearing capacity
- Warning panels and product identification plate
- 4-way forklift access
- Protective varnish coating
- Optional additional polypropylene, polyethylene, or PVC tank available on request

Recommended use

- Indoor
- For the safe indoor storage of drums, containing hazardous and polluting liquids in the event of accidental leaks, or drums failure, that could occur during daily operations. For workplace, people and environmental safety.
- Heavy duty
