

Heavy duty forklift tipping skips for the waste materials collecting, handling and unloading with 4 wheels, reinforcements and capacity up to 2000 kg. The operator activates the emptying mechanism within the forklift with no need to get out.

- Robust steel structure with reinforcements for extra strength and large heavy duty handle
- Forklift tunnels with the end part ending in a wedge with an anti-shatter limit switch function.
- Preformed tank prearranged for grid installation and discharge system at any time
- Load capacity up to 2000 Kg
- 4 large diameter wheels: 2 fixed casters 2 swivel castor wheels
- Rollover protection and automatic emptying mechanism actionable from within the forklift
- CE marked and UNI EN ISO 9001 certified production

Recommended use

- Indoor/Outdoor
- For the safe handling and unloading of industrial materials, bulk materials and waste and for operational safety since the operator activates the dumping mechanism directly from the forklift seat.
- Heavy duty
