

# Countertop Polyethylene Cabinet for Corrosives

Polyethylene Countertop Safety Cabinet

# Corrosives Safety Cabinets - Polyethylene and Modular Quick-Assembly Cabinets

## Countertop Polyethylene Cabinet for Corrosives

Safely store strong acids such as hydrochloric, sulfuric, or nitric acid; or bases such as sodium, potassium, or calcium hydroxide in this durable, HDPE (high-density polyethylene) cabinet. With no metal parts to corrode.

- Point-of-use convenience for small quantities of acids or bases
- Completely metal-free—excellent chemical resistance against damaging spills or vapours
- Includes two poly shelves; use one inside to catch leaks, store the other under cabinet and remove for use as a worktop
- Hinge door from either side—accepts optional padlock
- Three application-specific labels included - Acid, Base and Corrosive

#### Colors:

- Blue

#### Sizes:

- 36.2cm x 50.2cm
