SÄKERHET

SE

Manualen innehåller viktig information, som alla användare skall förstå, innan masten tas i bruk.

Använd alltid hjälm, handskar och skyddsskor vid arbete med masten!

Vistas ej mer än en person inom riskområdet (7 meters radie) då utrustningen monteras eller demonteras.

Var uppmärksam på att under montering och demontering kan oväntade rörelser ske på grund av tyngdpunktsförskjutning. Detta kan orsaka oförutsedda klämrisker.

SIKKERHETSTILTAK

NO

Manualen inneholder viktig informasjon. Det er påkrevd at alle brukere forstår denne informasjonen før masten tas i bruk.

Bruk alltid hjelm, handsker og vernesko ved arbeid med masten!

Det må ikke oppholde seg mer enn én person i risikoområdet (7 meters radius) når utstyret monteres eller demonteres.

Vær oppmerksom på at det kan oppstå uventede bevegelser under montering og demontering som følge av tyngdepunktsforskyvning under reising/legging. Dette kan forårsake uforutsett klemfare.

TURVATOIMET

FI

Käyttöohje sisältää tärkeitä tietoja, jotka kaikkien käyttäjien on ymmärrettävä ennen maston käyttöönottoa.

Käytä aina kypärää, käsineitä ja turvakengkiä mastoa käsitellessäsi!

Vaara-alueella (7 metrin säteellä) saa oleskella vain yksi henkilö maston asennuksen tai purkamisen aikana.

Huomioi, että jalusta/masto voi painopisteen muuttuessa liikkua odottamattomalla tavalla ja aiheuttaa puristumisvaaran asennuksen ja purkamisen aikana.

SAFETY PRECAUTIONS

GB

The manual contains important information that all users must read and understand before using the mast.

Always wear a helmet, gloves and safety shoes when moving or adjusting the pole!

No more than one person should be within risk zone (7 metres radius) when the equipment is assembled or dismantled.

During assembly and dismantling be aware that sudden movements can occur due to shifting of the centre of gravity as you raise/lower the mast. This increases the risk of trapping fingers, clothing, etc.

SE

Art.nr: EB13368
Justerbar i höjd: 2300-5000mm
Mått ihopfälld: 320x320x2300mm
Mått upprest läge: Ø2000x5000mm
Vikt: 21 kg
Rekommenderad max. vikt på armatur: 12 kg
Rekommenderad max total area på armatur: 0,13 m²
Max vindhastighet: 15m/s
Material: Stål
Ytbehandling: Elzink

CM4

Art.nr: EB13369
Justerbar i höjd: 1850-4000mm
Mått ihopfälld: 160x205x1850mm
Mått upprest läge: 160x205x4000mm
Vikt: 14,5 kg
Rekommenderad max. vikt på armatur: 12 kg
Rekommenderad max total area på armatur: 0,13 m²
Max vindhastighet: 15m/s
Material: Stål
Ytbehandling: Elzink
