

FLEX 150W SY

Art.no	556105
Watt (system power)	150W
Voltage	220-240VAC, 50-60Hz
Lumen	22500Lm
Color temperature (Kelvin)	5700K
Color rendering (CRI)	70
Power factor	0,95
Optics	Clear glass
Light exchange	141Lm/W
Spreading angle	SY 110°
Working temperature	-20° to +50°
Cable	H05RN-F 3G1MM²
Dimension BXHxD (MM)	408X257X175
Weight kg	4,9Kg
Protection class	I

PRODUCT INFO

FLEX 150W, Energy efficient LED headlights with adjustable modules. The modules are adjustable only at different angles. Either only the entire luminaire is adjusted or both the luminaire and modules. The headlight is made of aluminum with powder coating from Akzo Nobel, LED diodes from Osram and Driver from Meanwell ELG. Aluminum luminaire body provides low weight and good cooling capacity, which in turn increases the life of diodes and ballasts. These factors contribute to high energy efficiency and long life. The luminaire is D-marked.

SUITABLE FOR: The headlight is excellent for lighting like parking lots, sports arenas, paddocks and other large areas. Also suitable for lighting masts.
