

MXF CVBP-602

MX FUEL™ BACKPACK CONCRETE VIBRATOR

- The MX FUEL™ Backpack Concrete Vibrator is the ideal solution when working on larger areas, delivering AC like performance without the hassle of laying cables or having the need for an AC socket on the jobsite
- It has the power to push up to 63 mm head at over 11,200 VPM for optimal consolidation, even in the stiffest concrete
- The push-button start delivers instant power, eliminating the repetitive motions of a pull start and reducing downtime, allowing you to get jobs done faster without sacrificing the power and run time you expect
- The modular design makes it easy to remove the backpack harness for walls and columns
- Modular design - with just one click from backpack to briefcase
- It can accept shafts up to 6.4 m long and heads up to 63 mm without sacrificing power
- Consolidates up to 40 m³ of concrete on 1x MXF XC406 battery
- The wireless remote gives you the ability to turn the machine on from up to 9 m away for more freedom when using long shafts
- System attachments, heads and shafts are available separately
- Building on the strengths of the FUEL™ technology, MX FUEL™ system reaches new levels of cordless performance. Focused on petrol, corded and pneumatic performance, these tools deliver without the hazards associated with emissions, noise, vibration, tripping hazards and the frustrations of complex maintenance

REDLITHIUM™

Vibrations (1/min)	11,200
