

PRODUCT DATA SHEET

Double-sided tape for the vapor barrier foil - 45000582

The tape has a special structure, thanks to which it can be torn by hand without the need for special tools. Very high adhesive strength makes the tape adhere perfectly to rough surfaces and is resistant to tearing. It is perfect for gluing and fixing carpets, foils of construction, insulation, PVC and PE.

Technical specification:

FEATURE	UNIT	TOLERANCE	VALUE	NORM
Width	mm	$\pm 1,5$ mm	38	-
Lenght	m		25	-
Core diameter	mm		76	-
Colour			white	
Tape thickness	μm	$\pm 10\%$	80	EN 1942
Carrier			mesh + liner	
Glue			synthetic rubber	
Adhesion at 180°	N/25 mm		15,0 [$\geq 12,0$]	EN 1939
Shear	h		≥ 120	EN 1943
Operating temperature	°C		from -10 to + 50	-
