## 3.5-Ton Super-Duty Floor Jack

A super-duty floor jack featuring the Lightning Lift™ hydraulic system for an effortless stroke and quick lift. Heavy-gauge steel, a tough UV powder-coated frame, and industrial-quality seals are just some of the features that make this floor jack the preferred choice by professionals who depend on strength, speed, and dependability to get the job done right.

### Key Features and Benefits:

- Innovative Lightning Lift™ hydraulic system provides ultimate performance and maximum speed
- Heavy-gauge steel and flanged side plates provide unsurpassed strength and durability
- Tough UV powder-coated frame withstands even the harshest environments
- Universal joint technology provides a smooth and controlled descent even at max height
- Crowned front wheels decrease surface contact on the floor for effortless travel
- Ball-bearing rear-mounted swivel casters provide easy maneuverability
- Industrial quality seals and O-rings ensure a long service life and leak-free operation
- Foam pad on handle and cushioned saddle prevent damage to vehicle finish and lift points
- Large saddle provides generous lifting area and a secure grip
- Built-in bypass system prevents accidental overload and improves operator safety
