

Tear-Down Table with Fluid Reservoir

This tear-down table is equipped with a drainage system to help control messes when working on engines and other automotive components. Made with a spacious work surface and all-steel construction, this table can easily handle loads up to 1,100 lbs while the professional-grade swivel casters let you move the table into perfect position to get the job done.

Key Features and Benefits:

- Heavy-duty rolled-edge all-steel construction will support loads up to 1,100 lbs
- Features a spacious and rugged steel work surface for work on projects of all sizes
- Sloping surface with drain hole allows convenient fluid drainage into a removable basin
- Reinforced steel top with 1/2" lip prevents small parts from rolling off during transport
- Lockable drawer on ball bearing slides securely stores tools between uses
- Extra-large shelf provides added storage capacity and maximum versatility
- Heavy-duty 4" swivel casters (2 locking) maximize mobility and durability
- Electrostatic powder coating with wrinkle finish provides added protection from rust, scratches, and chips
- Square-tube leg construction easily supports the heaviest loads
