- Specially formulated rubber pad provides unsurpassed comfort and durability

Prod. No. **V3551070-O/S**

THE GRIP THAT WON'T LET YOU SLIP.

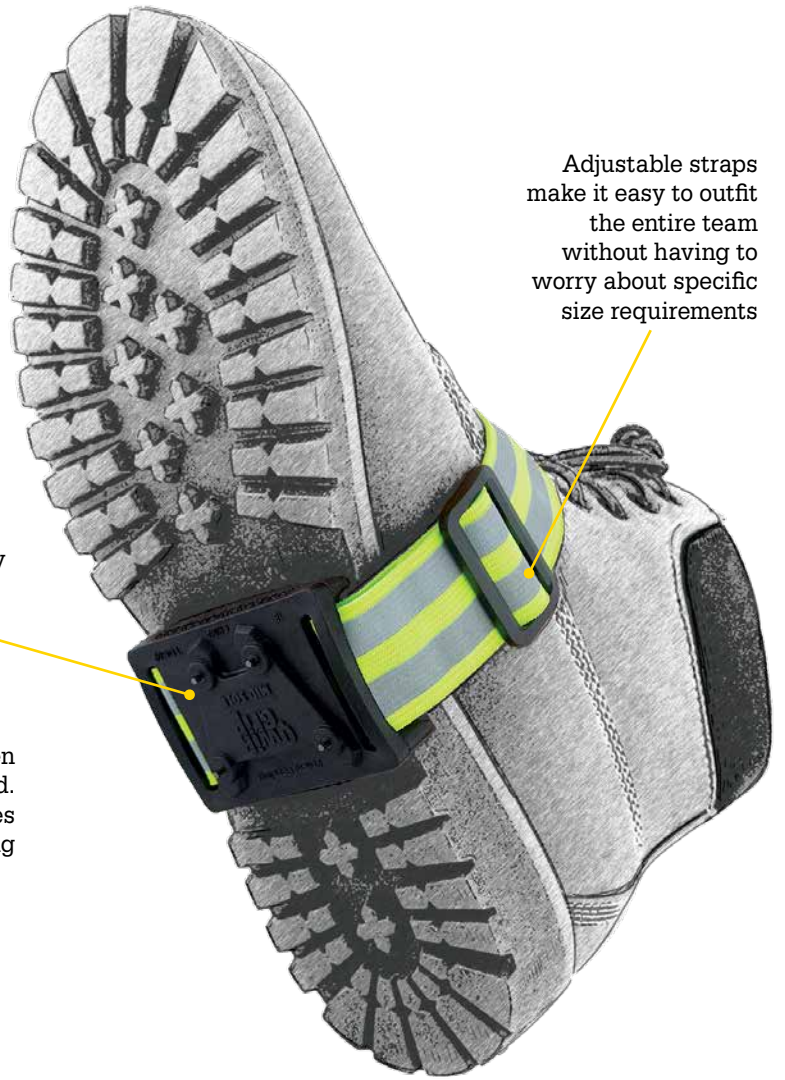

The Qwik Grip Mid-Sole is designed for traditional heeled work boots and footwear where the sole is not entirely flat to the ground and a gap exists directly underneath the arch. The rubber platform fits securely between the arch and the heel to provide superior traction in ice and snow.

This product is covered by SureWerx against defects in materials and workmanship when the product is used for the purpose for which it was designed. Please refer to surewerx.com for more warranty information. SureWerx is not responsible for typographic errors.

Ice penetrating spikes are made from long-lasting "Military" Grade Tungsten Carbide materials and molded into a natural rubber traction pad to deliver unsurpassed comfort, grip and durability

Adjustable straps make it easy to outfit the entire team without having to worry about specific size requirements

Easily rotates to the side of foot when ice traction isn't needed. Ideal for walking indoors or work sites requiring driving or climbing

Ideal for heeled work boots where a large gap exists between the arch and the heel

Reflective hi-viz material provides added visibility and safety
