

NEW PRODUCT ANNOUNCEMENT

DUAL-MODE AIR GREASE GUN

Prod. No. **350163** Mod. No. **JDMAGG-14**

JET's new dual-mode air grease gun is perfect for anyone working in automotive industries, workshops, manufacturing, or other facilities where frequent greasing is required. The patented dual-mode technology allows users to instantly switch from single shot to continuous flow. This gun also features an ergonomic pistol grip, heavy-duty die-cast aluminum head with a combined bulk loader/air-bleeder valve for faster reloading, a precision-honed bore that allows users to operate the gun under extreme backpressure, a 30" flex hose, and a 6" rigid hose. This gun is not only built to be exceptionally durable and reliable but also reduces the need to buy two separate grease guns!

FEATURES / BENEFITS

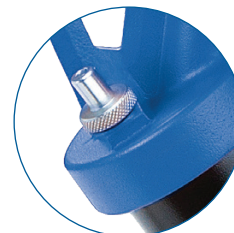

- Patented dual-mode technology instantly converts from single shot to continuous-flow operation with a simple flick of a switch
- Eliminates need for two air grease guns
- Dual-piston design delivers up to 3x volume of standard grease guns, cutting greasing time to 1/3rd
- Heavy-duty die cast aluminum head with combined bulk loader/air bleeder valve
- Precision-honed bore allows gun to operate even under extreme backpressure
- Ergonomic pistol grip angled for ideal balance and user comfort
- Retaining clip secures hose for storage
- Complete with 30" flexible hose, 6" steel extension and 4-jaw coupler
- Use bulk load, filler pump, or 14 oz cartridges

Patented dual-mode technology instantly converts from single shot to continuous flow operation

Retaining clip secures hose for storage

Combined bulk loader/air bleeder valve
