

20950, 20951, 20953, 20956, 20957 CH-350 Industrial Climbing Hard Hat with Visor, Non-Vented

Key Features and Benefits:

The Jackson Safety CH-350 is a lightweight, climbing-inspired industrial hard hat. It features an integrated high-impact polycarbonate visor, 3-pt chin strap, and a 6-pt ratchet suspension for a comfortable and secure fit. Includes 4 external clips to fasten elastic straps on LED lighting systems. Molded in ABS material, it meets ANSI Z89.1-2014 (R2019) Type 1, Class C, G & E requirements. Polycarbonate visor meets ANSI Z87.1-2020 High Impact requirements.

- Molded from lightweight and tough ABS materials for maximum protection
- Rapid Dial 6-pt ratcheting suspension with comfort pad delivers unparalleled impact absorption
- Integrated flip-up high-impact polycarbonate visor provides superior full-face protection
- Non-vented style provides greater protection from falling debris and is ideal for electrical insulation
- Micro brim design allows a wide and panoramic field of view
- Low profile and balanced weight distribution provides increased comfort even during extended use
- Comfortable 3-pt chin strap with molded chin cup provides a secure and balanced fit
- Strategically placed mounting clips securely fasten headlamps and lighting systems
- Includes slotted adaptors for use with a wide range of PPE accessories
- Made with a rugged sport-inspired design that workers are motivated to wear
