HERO

Tiny by design and easy to use, our smallest 4K camera features a rugged super-light design that's a fraction of the size and weight of other GoPro cameras, but still waterproof to 16ft (5m).

Streamlined controls let you record 4K video, immersive photos and slo-mo shots with a press of the Shutter button. After recording, play back your video on the GoPro Quik app. HyperSmooth video stabilization will automatically smooth out the shakes in your footage.

Plug HERO in to charge and your footage will be uploaded to the cloud, turned into a highlight video and sent to your phone so you can relive your adventure and share the fun.¹

- 60-minute runtime³
- Highlight videos sent to your phone automatically¹
- Automatically upload your media to the cloud¹
- Wirelessly transfer your media to the GoPro Quik app
- Compatible with 35+ GoPro mounts + accessories

Features + Benefits

SIMPLIFIED DESIGN

Ultra Compact Design Weighs Only 86g

With 35% less volume and 44% less mass than HERO12 Black, HERO is small and light enough to follow you on any adventure. Carry it in your pocket, in your pack or capture body- and gear-mounted shots or handheld footage on the go.

Rugged + Waterproof to 16ft (5m)

Completely waterproof and built with legendary GoPro durability, HERO is ready to capture the fun whether you're ripping through mud, snow or water (down to 16ft/5m) or just exploring nature or a new city.

Intuitive Touch Screen

HERO's LCD screen lets you frame your shots perfectly while touch controls let you simply swipe to swap capture modes and tap to adjust cameras preferences.

Mounting Flexibility

HERO's built-in mounting fingers make it compatible with a huge variety of GoPro mounts to help you get any shot you can dream up. Record point-of-view footage and relive awesome moments exactly as you saw them or capture them from new angles and see things as you've never seen them before.

SIMPLIFIED CAPTURE

Super Simple Controls

HERO makes capturing breathtaking GoPro footage incredibly easy—just frame your shot and hit the Shutter button for amazing results.

Stunning Image Quality

HERO captures the action in ultra HD 4K video while also taking 12MP photos. You can also grab 8MP photos of your favorite shots from your videos using the GoPro Quik app.

HyperSmooth Video Stabilization With the Quik App

The GoPro Quik app uses HyperSmooth video stabilization to automatically smooth out the bumps in your footage. Whether you're biking, skating, skiing or chasing your kids through the park, even the shakiest footage comes out silky smooth.

2x Slo-Mo

Everything is more awesome in slow motion. HERO lets you record the action in 2x slo-mo to catch details that can't be seen at full speed.

Easy Hands-Free Capture

HERO can be worn comfortably with GoPro body mounts to get incredible footage when your hands are busy with handlebars, ski poles, tow ropes and more. After mounting, use voice commands for the ultimate in hands-free control.

Long-Lasting Battery

Stay out on the trail or water even longer without missing a shot. HERO can record continuously for 60 minutes at its highest video setting on a single charge.³

SIMPLIFIED SHARING

Highlight Videos Automatically Sent to Your Phone¹

Simply plug in your GoPro when connected to your home Wi-Fi. While it's charging, your footage is automatically uploaded to the cloud and used to make a highlight video complete with beat-synced music and effects. Videos are automatically sent to your phone and ready to share.

Edit Your Shots With the GoPro Quik App

The GoPro Quik app features an array of easy-to-use tools that let you edit your footage like a pro. You can tweak the highlight videos created by the app or make your own videos from scratch. You can also zoom in, crop, add filters and more with your footage.

Easy Transferring + Unlimited Cloud Backup¹

Transferring photos and videos to your phone is a snap. Choose wireless upload via the Quik app. There's also unlimited cloud storage with hassle-free auto-upload.¹ Just plug in your camera when connected to your home Wi-Fi and your GoPro does the rest.
