

26" PRO35™ ROLLER CABINET FOAM TOOL KIT 278 PIECES RED

- A 278-piece, 26" tool kit featuring a 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish
- Roller cabinet with seven drawers, each with 3-step ball bearing slides and a 30 kg capacity
- Includes tools for industrial tasks, organized in high-density EVA foam trays
- Equipped with two braked swivel castors and two fixed castors for mobility, and a 3-digit combination lock for security
- TengTools tool control system in high-density EVA foam

The TengTools 26" PRO35™ roller cabinet tool kit TKW26R278F is specifically curated to meet the varied needs of industrial users. This matte red tool kit consists of 278 pieces housed in a practical and compact roller cabinet built for durability, making it a versatile asset in diverse industrial environments. The dimensions are 680 mm in width, 460 mm in depth, and 813 mm in height, extending to 960 mm with castors mounted. The cabinet features seven drawers - five at a height of 75 mm and two taller ones at 154 mm, each supporting up to 40 kg to accommodate a wide range of tool sizes and weights. The tool kit provides a comprehensive array for industrial tasks, including 72 teeth spanners, sockets, combination spanners, a variety of screwdrivers, different bits with a ratcheting bit driver, and 14 vinyl grip pliers designed for greater access in tight places. The arrangement of each tool in three-color precision-cut high-density EVA foam trays ensures a well-organized workspace. This setup not only helps in quickly identifying missing tools but also boosts efficiency and safety. The roller cabinet's functionality is further enhanced with accessory holes on both sides, allowing for the attachment of additional accessories. Mobility is facilitated with two 5" braked swivel castors and two 5" fixed castors, complemented by a comfort grip handle, making it easy to maneuver around the workspace. All drawers in the cabinet are equipped with 3-step ball bearing slides for smooth operation and are lined with EVA mats to protect the tools and minimize noise. The inclusion of a 3-digit combination lock adds an extra layer of security for the tools stored inside. The cabinet features a 3-piece heavy gauge steel cabinet frame construction and the whole storage unit has undergone a 5-step phosphate-free rust prevention process to ensure durability and resistance to corrosion. Additionally, the cabinet uses 5 of the available 7 drawers, providing space for adding more tools, allowing for the tool kit's expansion and customization according to the user's evolving needs. Supplied with a TCA08 paper roll holder.
