

## 37" PRO35™ ROLLER CABINET 7 DRAWERS RED

- Seven 3-step ball bearing slides and EVA-lined drawers with 75mm and 154mm heights, accommodating up to 30kg and 40kg respectively, for smooth, noise-reduced operation
- 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish for durability
- 5mm EVA top mat for a durable work surface
- Two 5" braked and two 5" fixed heavy-duty castors, plus a comfort grip handle for easy mobility
- Flexible tool storage compatible with the modular TengTools tool control system

The TengTools 37" PRO35™ roller cabinet TSW37R7 in matte red, is a robust solution for mobile tool storage, tailored to meet the demands of professional environments. This roller cabinet, with dimensions of 964 mm in width, 460 mm in depth, and 813 mm in height (985 mm with castors), offers a large storage capacity. The cabinet comprises seven drawers, five with a height of 75 mm and two drawers 154 mm in height for storing bulkier tools. The drawer capacities vary, with the first five drawers supporting up to 25 kg each, and the larger drawers each capable of holding 40 kg. These drawers are engineered to accommodate any combination of TengTools modules with similar dimensions as six TC1 modules, one TCX4 module, and one TCX2 module. This ensures a highly customizable and organized tool storage system. Each drawer is equipped with 3-step ball bearing slides and an EVA mat lining, ensuring less noisy and consistently smooth operation. The cabinet's top surface is adorned with a 5 mm EVA top mat, providing a durable and stable area for work or additional tool placement. Accessory holes on both sides of the cabinet allow for further customization and practicality in tool arrangement. Mobility is facilitated by 2" wide heavy-duty castors, including two 5" braked swivel castors and two 5" fixed castors, ensuring easy movement and stable placement. Enhancing the functionality, a comfort grip handle is positioned on the side of the cabinet, aiding in effortless maneuvering across any workshop layout. The cabinet frame of this high-quality, durable, and versatile tool storage has a 3-piece construction crafted from high quality heavy gauge steel. The roller cabinet has undergone a 5-step phosphate-free rust prevention process to enhance its resistance to corrosion. Overall it is built for durability and an excellent choice for professionals seeking a spacious and efficient system to organize and transport their tools securely.
