

FIXING BRACKETS FOR 26", 37" & 53" DEEP TOOL CHEST

- Enhances stability and security of storage systems
- Prevents tipping when relocating stacked tool chests and roller cabinet combinations
- Simple hook and screw mechanism ensures easy and secure installation
- Designed specifically for TengTools chest and cabinet integration
- Comes in a set of two for a complete solution

The fixing brackets TCF07 are designed for the purpose of securely anchoring a TengTools tool chest to a cabinet. The brackets, offered in a black colour and in a set of two, hook onto the side handle of the tool chest and the lip of the roller cabinet. With the tightening of a screw, they ensure a firm and reliable attachment that prevents the tool chest from tipping over when the fully loaded storage system is in motion. The brackets are compatible with the TST26R5F 26" 5-drawer tool chest, the TST37R5F 37" 5-drawer tool chest, and the TST53R10F 53" 10-drawer tool chest.
