

## 26" PRO35™ ROLLER CABINET 9 DRAWERS RED

- Roller cabinet with nine uniform 75 mm drawers, compatible with TengTools modular tool control system for organized tool arrangement
- 30 kg capacity drawers equipped with 3-step ball bearing slides and EVA mats for smooth operation
- Top area features a 5mm EVA mat for a durable work surface
- A 3-digit combination lock for secure storage
- 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish for longevity

The TengTools 26" PRO35™ roller cabinet TSW26R9 in matte red finish stands as a reliable choice for professionals who value mobility in their workspace. Measuring 680 mm in width, 460 mm in depth, and 813 mm in height (960 mm with castors), this roller cabinet is crafted to be compact and easily maneuverable. Equipped with nine 75 mm tall drawers the cabinet offers a uniform and expansive storage solution. The uniformity of drawer height ensures consistent storage options across all compartments, ideal for a wide array of tools and equipment. Each drawer can accommodate up to 40 kg and is designed to hold any combination of TengTools modules fitting the dimensions of four TC1 modules plus a TCX4 module. The modular system promotes a highly organized and efficient tool arrangement. The drawers feature 3-step ball bearing slides, ensuring smooth and durable operation. Inside each drawer there is an EVA mat to protect tools, reduce noise, and keep contents securely organized during movement. The top area of the cabinet is furnished with a 5 mm EVA top mat, creating a stable and resilient workspace. Accessory holes on both sides of the cabinet allow for additional customization and practical tool arrangement. In terms of mobility, the cabinet is equipped with heavy-duty castors: two 5" braked swivel castors and two 5" fixed castors. This configuration provides both ease of movement and stable positioning. A comfort grip handle on the side aids in maneuvering the cabinet through any workspace layout. Security comes in the form of a 3-digit combination lock that protects the tools from unauthorized access. The cabinet is built for durability and features a 3-piece heavy gauge steel cabinet frame, ensuring endurance and longevity in demanding professional environments. A 5-step phosphate-free rust prevention process is applied, enhancing the cabinet's resistance to corrosion to maintain its appearance.
