

FIXING BRACKETS FOR 26" 4-DRAWER TOOL CHEST

- Enhances stability and security of storage systems
- Prevents tipping when relocating stacked tool chests and roller cabinet combinations
- Simple hook and screw mechanism ensures easy and secure installation
- Designed specifically for TengTools chest and cabinet integration
- Comes in a set of two for a complete solution

The TengTools black tool chest fixing brackets TCF06 come in a set of two and crafted for the purpose of securely attaching a TengTools tool chest to a cabinet, providing a stable and integrated storage unit. They simply hook onto the side handle of the tool chest and the lip of the roller cabinet. When tightening the screw a firm attachment is achieved, effectively preventing the tool chest from tipping when the entire stack system is in motion. This feature maintains the stability and safety within the workshop when relocating the storage system. The brackets are specifically compatible with the TSM26R4 and TSM26B4 models, both 26" tool chests with four drawers.
