

## 1/2" TORQUE WRENCH & BREAKER BAR SET TTX4

**TT**  
SERIES

- Precision automotive and heavy maintenance torque wrench set that meet DIN and ISO standards
- Includes an adjustable 1/2" drive torque wrench with a 40-210 Nm range for precision tightening
- 1/2" drive breaker bar with chrome vanadium construction for durability
- Set organized in a TengTools TTX4 module for efficient storage

The TengTools 1/2" torque wrench & breaker bar set TTX2493 is a comprehensive toolkit designed specifically for precision tightening and heavy-duty applications within the automotive and heavy maintenance sectors. This set includes the 1292AG-EP 1/2" drive torque wrench and the 1201 1/2" drive breaker bar, each tailored for specific tasks. The 1292AG-EP torque wrench is engineered for precise fastener tightening, offering an adjustable torque range from 40 to 210 Nm. It incorporates a click mechanism that signals when the desired torque is reached, along with an angular gauge for post-tightening accuracy. The tool is marked with dual scales in Nm and ft/lb, and features a twist lock to maintain settings during use. The wrench is designed with a reversible 24 teeth ratchet mechanism for clockwise tightening, adhering to DIN3122 standards and achieving an accuracy within  $\pm 4\%$  which is in line with ISO6789 standards. The torque wrench is supplied with its individual certification number to ensure reliable readings. The 1201 breaker bar complements the torque wrench with its durable chrome vanadium construction and satin finish for enhanced grip. It features a ball detent retainer for secure socket attachment and an ergonomically designed handle for comfortable use in various conditions. This tool meets DIN3122F standards, emphasizing its quality and reliability. The tools come in a size X4 (TTX4) tool module with a PS (polystyrene) inlay that simplifies organization and integrates into your TengTools storage system.
