

26" PRO35™ ROLLER CABINET FOAM TOOL KIT 335 PIECES RED

- A 335-piece, 26" tool kit featuring a 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish
- Roller cabinet with seven drawers, each with 3-step ball bearing slides and a 30 kg capacity
- Includes essential mechanical tools, organized in high-density EVA foam trays for easy identification
- Equipped with accessory holes for customization, 5" castors for mobility, and a 3-digit combination lock for security
- TengTools Tool Control system in high-density EVA foam

The TengTools 26" PRO35™ roller cabinet tool kit TKW26R335F is a 335-piece set in a matte red finish. It combines practicality and durability, making it a capable component in any professional mechanic's workspace. Housed in the TSW26R7 roller cabinet, the tool kit's dimensions are 680 mm wide, 460 mm deep, and 813 mm high, expanding to 960 mm with castors. The accessible cabinet includes seven drawers, five with a height of 75 mm and two taller ones at 154 mm, each capable of supporting up to 40 kg, accommodating a wide range of tools from light to heavy-duty. The tool kit encompasses tools critical for mechanical work, including various drive sockets, ratchets, files, pliers, power grips, spanners, screwdrivers, bits, T-handle hex & tx keys, a torque wrench, inspection tools, and general tools. All these tools are precisely arranged in three-color precision-cut high-density EVA foam trays, facilitating easy identification and secure placement, vital for avoiding tool loss or misplacement. Further enhancing the cabinet's utility, it features accessory holes on both sides for customization and attachment of accessories. Mobility is a core attribute, with two 5" braked swivel castors and two 5" fixed castors, along with a comfort grip handle for easy movement around the workshop. Each drawer is fitted with 3-step ball bearing slides and lined with EVA mats to protect the tools and reduce noise. Security is bolstered by a 3-digit combination lock to safeguard the tools inside. The roller cabinet has a 3-piece heavy gauge steel frame built to withstand professional mechanical use. It has undergone a 5-step phosphate-free rust prevention process, ensuring its longevity and durability. The matte red powder coating not only adds a professional look but also enhances wear and corrosion resistance.
