

## 26" PRO35™ DEEP TOOL CHEST 5 DRAWERS RED

- Five robust drawers, each supporting 30 kg, with 3-step ball bearing slides
- An EVA mat in every drawer for reduced noise and tool movement
- Constructed from heavy gauge steel treated with a 5-step phosphate-free rust prevention process and a powder coat finish
- Features a 3-digit combination lock, recessed handles, and rubber feet for security and mobility
- Compatible with TengTools tool control system for customized tool organization

The TengTools 26" PRO35™ deep tool chest TST26R5F, finished in matte red, is a premium tool storage solution designed for professional use. Measuring 660 mm in width, 455 mm in depth, and 483 mm in height, this tool chest integrates seamlessly into any professional workshop setting. This unit features a unique drop front with the TengTools logo, which covers the drawers when the box is closed, adding an extra layer of protection and a sleek appearance. It houses five robust drawers: two with a height of 50 mm and three with a height of 75 mm. Each drawer has a capacity of 30 kg, suitable for a wide range of tools and accessories. They operate on 3-step ball bearing slides, ensuring a smooth and reliable opening and closing experience, even under heavy loads. Every drawer is lined with an EVA mat that reduces tool movement during use and transport. The tool chest is compatible with the flexible TengTools tool control system, including both the space-saving TT Series and the protective FOAM Series, which features high-density EVA in three contrasting layers. The drawers are tailored to accommodate four TengTools TC1 modules plus a TengTools TCX4 module in each drawer, allowing for maximum organization and efficient tool retrieval. This allows professionals to build their ultimate tool kit tailored to any need or setting. Constructed from heavy gauge, top-quality steel, the unit is built to withstand the rigors of a professional workshop. It is treated with a phosphate free 5-step rust prevention process and powder coated, ensuring longevity and maintaining its pristine appearance over time. Additional features include a 3-digit combination lock for enhanced security, recessed side handles that facilitate easy mobility, and rubber feet for stability. The drawers are equipped with durable aluminium handles, contributing to the unit's overall appearance and professional user experience.
