

26" PRO35™ LOW ROLLER CABINET 4 DRAWERS RED

- Four-drawer design, 75mm and 312mm heights with capacities ranging from 30kg to 40kg suitable for various tool size
- 5mm EVA top mat and drawers lined with EVA mats for tool protection and noise reduction
- Two 4" braked and two 4" fixed castors and a comfort grip handle for effortless maneuvering
- Secured with a 3-digit combination lock and featuring a 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish
- Compatible with TengTools tool control system for flexible organization

The TengTools 26" PRO35™ low cabinet TSW26R4L is a roller cabinet tool storage for professional environments where space optimization is crucial. Measuring 680 mm in width, 460 mm in depth, and 656 mm in height (770 mm with castors), this roller cabinet fits neatly under low workbenches. Comprising four drawers - three with a height of 75 mm and one expansive drawer at 312 mm - this cabinet is adept at storing both standard and larger tools. The drawer capacity up to 40 kg, capable of holding a significant number of tools and equipment. Each drawer is tailored to accommodate a variety of TengTools modules, equivalent in size to four TC1 modules and a TCX4 module, offering versatility in tool organization. The cabinet's functionality is enhanced with accessory holes on both sides, allowing for additional customization. A durable 5 mm EVA top mat adorns the cabinet's surface, providing a stable and resilient work area. Additionally, each drawer is lined with an EVA mat, safeguarding tools against movement and potential damage as well as offering some noise reduction during transport and use. Engineered for mobility, the cabinet features two 4" braked swivel castors and two 4" fixed castors ensuring ease of movement and stable positioning. A comfort grip handle on the side aids in maneuverability. A 3-digit combination lock provides safety for stored items. With its 3-piece heavy gauge steel frame and a 5-step phosphate-free rust prevention process, the cabinet is not only sturdy but also resistant to corrosion.
