

53" PRO35™ ROLLER CABINET 9 DRAWERS RED

- Sturdy 3-piece heavy gauge steel cabinet frame
- Tool storage treated with a phosphate free 5-step rust prevention process and powder coat finish
- Features an 18 mm laminated MDF top and four 6" swivel castors (two braked)
- Nine drawers with varying heights (75mm, 154mm, 160mm) compatible with TengTools tool control system for customizable organization
- Drawers equipped with 3-step ball bearing slides and EVA mats to reduce noise and protect tools
- 3-digit combination lock for secure storage of valuable tools

The TengTools 53" PRO35™ roller cabinet TSW53R9 with a matte red finish is a robust and spacious tool storage solution specifically engineered for professionals who value an organized and efficient workspace. This roller cabinet, with an overall width of 1350 mm, depth of 460 mm, and height of 813 mm (983 mm with castors), is a part of the TengTools mobile tool storage assortment. This unit features nine drawers, each designed to cater to a variety of storage needs. It includes six drawers with a height of 75 mm, two drawers with a height of 154 mm, and a top drawer with a height of 160 mm to accommodate larger items. With a drawer capacity of 40 kg, this TengTools 53" PRO35™ roller cabinet is a high-capacity, durable, and versatile tool storage solution. The cabinet's compatibility with the TengTools tool control system allows professionals to customize their tool storage to meet their specific requirements. The drawers can accommodate any combination of TengTools modules that match the same overall dimensions as in the following examples: the regular width drawers have room for four TengTools TC1 modules plus a TengTools TTX4 module, while the full-width top drawer can accommodate eight TC1 modules and two TCX4 modules. This capacity ensures maximum organization and quick accessibility for a wide range of tools. Each drawer is equipped with 3-step ball bearing slides, guaranteeing smooth and reliable operation. An EVA mat lines each drawer, safeguarding the tools against movement and reducing noise. A notable feature of this cabinet is the hard-wearing 18 mm laminated MDF top, offering a sturdy and functional workspace. Additionally, the cabinet is designed with holes on both sides for accessories, enhancing its utility and adaptability. With its 3-piece heavy gauge steel frame the tool cabinet is built for longevity and resilience, which is further emphasized by a 5-step phosphate-free rust prevention process. Mobility is facilitated by four 6" heavy-duty swivel castors, two of which are braked, ensuring both ease of movement and stability when stationary. A comfort-grip handle on the side of the cabinet enhances maneuverability. The cabinet also features a 3-digit combination lock for enhanced security.
