

## 26" PRO35™ ROLLER CABINET 9 DRAWERS BLACK

- Roller cabinet with nine ample 75 mm drawers, each with a 30 kg capacity, for varied tool storage
- Compatible with TengTools tool control system for efficient organization
- Drawers lined with EVA mats and equipped with 3-step ball bearing slides for smooth use
- Includes a 3-digit combination lock and a 5mm EVA top mat
- 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish

The TengTools 26" PRO35™ roller cabinet TSW26B9 in a matte black finish functional choice for professionals seeking mobile tool storage for workshops. This roller cabinet, measuring 680 mm in width, 460 mm in depth, and 813 mm in height (960 mm with castors) is designed to offer ample storage while maintaining a sleek and mobile form. It is built for durability and features nine uniformly sized drawers, each 75 mm in height, providing a comprehensive and streamlined storage experience. The uniform drawer height is ideal for organizing a wide range of tools and accessories which facilitates a highly organized and efficient tool arrangement in professional environments. Each drawer supports a load of up to 40 kg and is tailored to accommodate any combination of TengTools modules that align with the dimensions of four TC1 modules plus a TCX4 module. The drawers are equipped with 3-step ball bearing slides, ensuring smooth and reliable operation. For added tool protection and noise reduction, each drawer is lined with an EVA mat. On the top work area of the cabinet there is a 5 mm EVA top mat. The cabinet's design includes practical accessory holes on both sides, enabling further customization and tool arrangement. Mobility is a key feature, with the cabinet boasting heavy-duty castors - two 5" braked swivel castors and two 5" fixed castors. This configuration ensures easy movement and stability. A comfort grip handle on the side aids in maneuvering the cabinet in various workspace layouts. The cabinet's security consists of a 3-digit combination lock, providing safety for stored items. The cabinet features a 3-piece heavy gauge steel frame construction and a 5-step phosphate-free rust prevention process to ensure resistance to corrosion and a lasting pristine appearance has been applied to the entire unit.
