

26" PRO35™ MEGA MASTER TOOL KIT 1033 PIECES BLACK

- 26" PRO35™ 16-drawer Mega Master general tool kit, with 3-step ball bearing drawer slides featuring 30 kg load capacity per drawer, containing 1040 pieces
- Three stacked powder coated heavy gauge steel units treated with a 5-step phosphate-free rust prevention process
- Heavy duty 5" castors, EVA drawer mats, and a 3-digit combination lock on each unit
- Comprehensive tool compilation with diverse sockets, spanners, screwdrivers, pliers, and specialized tools for a range of mechanical tasks
- Utilizes the modular TengTools tool control system for efficient tool organization and quick identification of missing items

The TengTools 26" PRO35™ Mega Master tool kit TKS26B1033T in black is an expertly assembled 1033-piece general tool kit for a wide range of tasks in industrial and mechanical sectors. At the heart of this kit are three stacked 26" storage units built for durability: a 9-drawer roller cabinet, a 3-drawer middle tool chest, and a 4-drawer tool chest on top. Together they provide a total of 16 drawers, each capable of supporting a load between 30 to 40 kg and all are equipped with smooth-operating 3-step ball bearing slides. The overall dimensions of the stacked system are 680 mm in width, 460 mm in depth, and 1570 mm in height when its heavy duty 5" castors are mounted. Crafted from high-quality heavy gauge steel, the tool kit features a 5-step phosphate-free rust prevention process that enhances corrosion resistance. Mobility is facilitated by two braked swivel castors and two fixed castors complemented by a comfort grip handle on the roller cabinet and recessed side handles on the tool chests. Stability and safety are further ensured by fixing brackets for securing the tool chests to the cabinet and a 3-digit combination lock on each unit for secure storage. The tool kit encompasses a diverse array of tools, including 1/4, 3/8, 1/2, and 3/4 inch drive sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, and more. Each toolset is systematically organized in dedicated modules as part of the TengTools tool control system, facilitating easy access and identification of any missing tools. Each drawer is lined with a protective EVA mat for tool stability and noise reduction. Additional features include two 32 piece clip rail sets, a paper holder, and fixing brackets to securely attach the tool chest to the cabinet.
