

INDUSTRIAL CUTTING TOOL SET TT2 6 PIECES

TengTools 6-piece cutting tool set designed for professionals in the industrial sector, offering a comprehensive range of tools for various cutting needs. The set includes TengTools compact tin snips with portable design and high-performance cutting capacity. The snips are forged from chrome molybdenum alloy steel and feature blades with serrated edges, making them ideal for cutting steel sheets or ductwork. In addition, the set comprises a pair of scissors with high carbon stainless steel blades, a 150mm scribe with a tungsten carbide tip, and a deburring tool with a swivel-mounted HSS blade. All tools are housed in a tool tray module size 2 (TT2) for easy organization and integration into your existing TengTools storage system.

- TengTools compact tin snips, made from chrome molybdenum alloy steel, provide high durability and precise cutting in metalwork tasks.
- High carbon stainless steel scissors feature a bi-material grip for increased comfort, ideal for cutting soft materials up to 22 mm.
- 150mm scribe with K20 grade tungsten carbide tip guarantees long-lasting marks on hard materials.
- Deburring tool with a swivel-mounted HSS blade is self-adjusting, offering versatility in deburring pipes, holes, and edges.
- TT2 module tool tray allows for a well-organized workspace and seamless integration into existing TengTools storage systems.
