

# FINAL CHARGE®

## PRO-SERIES

### ANTIFREEZE/COOLANT EXTENDED LIFE 3-WAY COOLANT TEST STRIPS

#### DESCRIPTION:

The organic acid inhibitors in FINAL CHARGE® PRO-SERIES Antifreeze/Coolant Extended Life are guaranteed to last 1,500,000 miles when properly maintained. However, sometimes maintenance practices may be compromised, leaving you with uncertainty of the performance of the coolant. Measuring the inhibitor level in your coolant is vital to insure that your engine is protected against wet sleeve liner cavitation and corrosion.

#### BENEFITS:

FINAL CHARGE® PRO-SERIES Antifreeze/Coolant Extended Life 3-Way Test Strips, provide a quick easy way to test the Organic Acid inhibitor level, pH level, and ethylene glycol ratio in your FINAL CHARGE® PRO-SERIES Extended Life Coolant. Simply dip the test strip in a coolant sample, wait a few seconds and match the test strip color pad to the chart on the bottle. It's that easy! FINAL CHARGE® PRO-SERIES Antifreeze/Coolant Extended Life 3-way test strips are to be used ONLY to test FINAL CHARGE® PRO-SERIES Antifreeze/Coolant technology.

FINAL CHARGE® PRO-SERIES Extended Life Coolant inhibitor package provides fast-acting, long-lasting protection to all cooling system metals including Controlled Atmosphere Brazed (CAB) and cast aluminum components. You may only need to test your coolant once or twice a year, saving you even more time and money.
