

DRUM HAND PUMP SYSTEM

Item Number: 13 040 006

Material Number: 4006433

Part Number: DEFDPHP

The Drum Hand Pump System is specifically designed, engineered, and manufactured to securely attach and efficiently pump diesel exhaust fluid from drums.

- Drum Hand Pump System includes expandable downtube, drum adapter and manual poly nozzle with lock pin feature
- Drum adapter allows precise connection of pump on the drum
- Efficient DEF delivery rate, per each pump stroke

TECHNICAL DATA

Delivery Rate: 10 strokes per gallon
Delivery Rate (gpm): approx. 32 strokes per minute
Pumping Media: DEF, non-aggressive liquids such as detergents, soaps, antifreeze, windshield wash, hydraulic oils, herbicides and pesticides.

USAGE:

Length of expandable down tube (inches): 14 to 38
Barrel screw coupling: S 64 x 5 + G 2"

MATERIALS OF PARTS IN CONTACT WITH LIQUID:

Pump Body:	Polypropylene
Seals:	Fluoroelastomers
Suction pipe:	Polypropylene
Dimensions L x W x H (inch):	10.24 x 4.92 x 52.36
Weight (lb):	8.38

PACKAGING

Packaging:	Carton
Dimensions L x W x H (mm)/(inch):	14.37 x 13.78 x 12.40
Weight including package (kg)/(lb):	5.42
Packaging unit:	1

DEFDPHP (MANUAL POLY NOZZLE)

UPC: 0-74804-06473-5
SCC 14 Bar Code: 1-00-74804-06473-2

SPECIFICATION

- Discharge hose 19.7 ft
- Manual poly nozzle for DEF with swivel
- Drum adapter fitting

SPECIAL NOTES

In the case of crystal formation, clean the pump with warm water until all crystals are dissolved
