

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Revision date: 03/28/2022

SECTION 1: Identificatio	n of the substance	e/mixture and of the comp	any/undert	aking
1.1. Product identifier				
Product form	: Mixt	ure		
Product name : The		rmal Charge PG Orange 60/40 Pre	diluted Heat T	ransfer Fluid
SDS ID	: 2000	007		
1.2. Relevant identified us	ses of the substance o	r mixture and uses advised agai	nst	
Jse of the substance/mixture		t transfer fluid		
Recommended use	: Con	tact supplier for more information c	n uses.	
1.3. Details of the supplie	er of the safety data she	eet		
Old World Industries, LLC 3100 Sanders Road Northbrook, IL 60062 - USA T (847) 559-2000 www.oldworldind.com				
1.4. Emergency telephon	e number			
Emergency number		424 9300 (United States); 00 1 703 mtrec	3 527 3887 (In	ternational)
SECTION 2: Hazards ide	ntification			
2.1. Classification of the	substance or mixture			
GHS-US classification				
Not classified				
2.2. Label elements				
GHS-US labelling				
Signal word (GHS-US)	: Non	e		
Hazard statements (GHS-US)	: Non	e		
Precautionary statements (GHS-	-US) : Non	e		
2.3. Other hazards				
No additional information availab	ble			
2.4. Unknown acute toxic				
No data available				
SECTION 3: Compositio	n/inform <u>ation on i</u>	ngredients		
3.1. Substances				
Not applicable				
3.2. Mixtures				
Name		Product identifier	% by wt	GHS-US classification
propylene glycol		(CAS-No.) 57-55-6	< 60	Not classified
water		(CAS-No.) 7732-18-5	< 40	Not classified
Full text of hazard classes and $ extsf{H}$	I-statements : see sectio	n 16		
SECTION 4: First aid me	asures			
4.1. Description of first a	id measures			
First-aid measures after inhalation		eathing is difficult, remove victim to athing. Call a poison center or a doo	fresh air and ctor if you feel	keep at rest in a position comfortable for unwell.
First-aid measures after skin cor	itact : Not	expected to present a significant h	azard under ai	nticipated conditions of normal use.
Clust stal uses sources often see a sec	1			dente a president contract la seconda de

: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after eye contact

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

irst-aid measures after ingestion	: Never give anything by mouth to an unconscious person. Rinse mouth. Obtain emergency medical attention.
4.2. Most important symptoms and o	effects, both acute and delayed
Symptoms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/effects after skin contact	: Contact during a long period may cause light irritation.
Symptoms/effects after eye contact	: May cause slight irritation.
Symptoms/effects after ingestion	: Excessive ingestion may cause central nervous system effects.
4.3. Indication of any immediate me No additional information available	dical attention and special treatment needed
SECTION 5: Firefighting measure	95
5.1. Extinguishing media	
Suitable extinguishing media	: Water spray. Alcohol-resistant foam. Dry chemical powder. Carbon dioxide.
5.2. Special hazards arising from the	e substance or mixture
Reactivity	: Stable.
5.3. Special protective equipment ar	nd precautions for fire-fighters
SECTION 6: Accidental release m	
	e equipment and emergency procedures
6.1.1. For non-emergency personnel	
No additional information available	
6.1.2. For emergency responders	
No additional information available	
6.2. Environmental precautions	
Drovent entry to service and mublic waters	a na sa
Frevent entry to sewers and public waters. I	Notify authorities if product enters sewers or public waters.
6.3. Methods and material for contai	
6.3. Methods and material for contain For containment	inment and cleaning up
6.3. Methods and material for contain For containment Methods for cleaning up	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections 	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available 	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storage 	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation.
6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc Storage conditions 	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc Storage conditions 7.3. Specific end use(s) 	 inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe storage, inc Storage conditions 7.3. Specific end use(s) No additional information available 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities • Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open flames, direct sunlight and other ignition sources. No smoking.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc Storage conditions 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/p 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities • Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open flames, direct sunlight and other ignition sources. No smoking.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc Storage conditions 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/p 8.1. Control parameters propylene glycol (57-55-6) 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities • Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open flames, direct sunlight and other ignition sources. No smoking.
 6.3. Methods and material for contain For containment Methods for cleaning up 6.4. Reference to other sections No additional information available SECTION 7: Handling and storag 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inc Storage conditions 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/p 8.1. Control parameters 	inment and cleaning up Collect spillage. Contain released product, pump into suitable containers. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. This material and its container must be disposed of in a safe way, and as per local legislation. e • Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Iuding any incompatibilities • Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open flames, direct sunlight and other ignition sources. No smoking.

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

8.2. Appropriate engineering controls

No additional information available

8.3. Individual protection measures/Personal protective equipment

Personal protective equipment:

Face shield. Protective goggles.

Hand protection:

Not required for normal conditions of use

Eye protection:

Chemical goggles or face shield

Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment

SECTION 9: Physical and sho

SECTION 9: Physical and chemical	properties
9.1. Information on basic physical and o	chemical properties
Physical state	: Liquid
Color	: orange
Odor	: Odorless
Odor threshold	: No data available
рН	: <10
Relative evaporation rate (butylacetate=1)	: Slight
Freezing point	: -51 °C (-60 °F)
Boiling point	: 107 °C (225 °F)
Flash point	: None. Percentage of water is greater than 20%.
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapor pressure	: < 0.1 mm Hg
Relative vapor density at 20 °C	: No data available
Specific Gravity	: 1.02
Density	: 1.02 kg/l (8.54 lbs/gal)
Solubility	: Water: Complete
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive limits	: Not applicable
Explosive properties	: Not applicable.
Oxidizing properties	: Not applicable.
9.2. Other information	
VOC content	: 0%
SECTION 10: Stability and reactivity	
40.4 Peactivity	

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.2. Chemical stability	
Stable.	
10.3. Possibility of hazardous reactions	
Hazardous polymerization will not occur.	
10.4. Conditions to avoid	
Heat. Open flame. Sparks.	
10.5. Incompatible materials	
Keep away from strong acids, strong bases and ox	kidizing agents.
10.6. Hazardous decomposition products	
Carbon monoxide. Carbon dioxide.	
SECTION 11: Toxicological information	on
11.1. Information on toxicological effects	
Acute toxicity	: Not classified
-	
propylene glycol (57-55-6)	20000 mg/kg (Rat; Experimental value)
LD50 dermal rat	22500 mg/kg (Rat; Experimental value)
LD50 dermal rabbit	20800 mg/kg (Rabit; Experimental value)
ATE US (oral)	20000 mg/kg bodyweight
ATE US (dermal)	20800 mg/kg bodyweight
Skin corrosion/irritation	: Not classified
Skin conosion/initation	pH: < 10
Serious eye damage/irritation	: Not classified
Senous eye damage/imation	pH: < 10
Peopiratory or ekin consitiontion	pm. < 10 : Not classified
Respiratory or skin sensitisation Germ cell mutagenicity	: Not classified
	Not classified
Carcinogenicity	. Not classified
Reproductive toxicity	: Not classified
STOT-single exposure	: Not classified
	Not close if a d
STOT-repeated exposure	: Not classified
Aspiration hazard	: Not classified
Symptoms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/effects after skin contact	Contact during a long period may cause light irritation.
	: May cause slight irritation.
	Excessive ingestion may cause central nervous system effects.
	5y

SECTION 12: Ecological information

12.1. Toxicity

propylene glycol (57-55-6)	
LC50 fish 1	51,600.00 mg/l (OECD 203: Fish, Acute Toxicity Test, 96 h, Oncorhynchus mykiss, Experimental value)
LC50 fish 2	51,600.00 mg/l (LC50; OECD 203: Fish, Acute Toxicity Test; 96 h; Oncorhynchus mykiss)
ErC50 (algae)	24,200.00 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP)

12.2. Persistence and degradability

propylene glycol (57-55-6)	
Persistence and degradability	Readily biodegradable in water. Biodegradable in soil.
Biochemical oxygen demand (BOD)	0.96 - 1.08 g O_2/g substance
Chemical oxygen demand (COD)	1.63 g O ₂ /g substance

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

propylene glycol (57-55-6)	
ThOD	1.69 g O_2/g substance
12.3. Bioaccumulative potential	
propylene glycol (57-55-6)	
BCF other aquatic organisms 1	0.09
Log Pow	-1.410.30 (-0.92; Experimental value; -1.07; Experimental value; Equivalent or similar to OECD 107; 20.5 °C)
Bioaccumulative potential	Not bioaccumulative.
12.4. Mobility in soil propylene glycol (57-55-6)	
Surface tension	71.60 mN/m (21.5 °C, 1.01 g/l, EU Method A.5: Surface tension)
Log Koc	0.46 (log Koc, Calculated value)
Ecology - soil	Highly mobile in soil.
12.5. Other adverse effects	
Effect on the ozone layer	: No known effect on the ozone layer

SECTION 13: Disposal considerations			
13.1. Waste treatment methods			
Product/Packaging disposal recommendations	 Dispose of contents/container to appropriate waste disposal facility, in accordance with local/regional/national/international regulations. 		

SECTION 14: Transport information

Department of Transportation (DOT)

In accordance with DOT

Not regulated

Transportation of Dangerous Goods

Refer to current TDG Canada for further Canadian regulations

ADR

Not regulated

Transport by sea

In accordance with IMDG / IMO Not regulated

Air transport

In accordance with IATA / ICAO Not regulated

SECTION 15: Regulatory information

15.1. US Federal regulations

Thermal Charge PG Orange 60/40 Prediluted Heat Transfer Fluid	
EPA TSCA Regulatory Flag	Toxic Substances Control Act (TSCA): The intentional ingredients of this
	product are listed

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

water (7732-18-5)

	Listed on the United States TSCA	(Toxic Substances Control Act) inventory
--	----------------------------------	--

15.2. International regulations

CANADA

Thermal Charge PG Orange 60/40 Prediluted Heat Transfer Fluid	
WHMIS Classification	This SDS has been prepared according to the criteria of the Hazardous Products Regulations (HPR) (WHMIS 2015) and the SDS contains all of the information required by the HPR. Applicable GHS information is listed in section 2.2 of this SDS.

15.3. US State regulations

California Proposition 65 - This product does not contain any substance(s) known to the state of California to cause cancer, developmental toxicity and/or reproductive toxicity

propylene glycol (57-55-6)	
U.S Pennsylvania - RTK (Right to Know) List	
SECTION 16: Other information	

Revision date	: 03/28/2022	

NFPA health hazard	 0 - Materials that, under emergency conditions, would offer no hazard beyond that of ordinary combustible materials. 0 - Materials that will not burn under trained first conditions, including.
NFPA fire hazard	: 0 - Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand.
NFPA reactivity	: 0 - Material that in themselves are normally stable, even under fire conditions.

SDS GHS US (GHS HazCom 2012) OWI

Old World Industries, LLC makes no warranty, representation or guarantee as to the accuracy, sufficiency or completeness of the material set forth herein. It is the user's responsibility to determine the safety, toxicity and suitability of his own use, handling and disposal of this product. Since actual use by others is beyond our control, no warranty, expressed or implied, is made by Old World Industries, LLC as to the effects of such use, the results to be obtained or the safety and toxicity of this product, nor does Old World Industries, LLC assume liability arising out of the use by others of this product referred to herein. The data in this SDS relates only to the specific material designated herein and does not relate to use in combination with any other material or in any process.
