

SURFACE CLEANER

Detergent compound specially formulated to eliminate grease and dirt residues on the edges, walls, and waterline of the spa.

PROPERTIES

Appearance	Liquid
Colour	Colourless
Density	1,02 ± 0,05 g/cm ³
pH	9 ± 1

CHARACTERISTICS

- Removes grease.
- Eliminates the waterline.
- Does not harm spa surfaces.
- Non-abrasive formula.

DOSAGE AND INSTRUCTIONS FOR USE

Pour the product directly (undiluted) onto a cloth or sponge and rub the surface to be cleaned. Then, use a dry cloth or paper towel to wipe it clean. In cases of stubborn dirt on surfaces near the waterline, lower the water level to achieve greater product effectiveness.
