

ctx530 ALGASTOP ULTRA

Prevents algae formation and growth

- High bactericide, algaecide and fungicide.
- Fast-working, long-lasting.
- Non-foaming, making it ideal for pools with counterflow systems or similar, water parks, etc.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		25ml /10m³

PROPERTIES

Appearance	Liquid
Colour	Blue
pH (20°C)	5,5 - 8,5
Density (20°C)	1,01 - 1,05 g / cm ³

CHARACTERISTICS

Ctx530 AlgaStop Ultra is a concentrated microbicide that can eliminate all types of algae, it also has flocculation capacity and does not generate foam. The product is compatible with most disinfection treatments and can be used with any type of filter. At the same time, it generates a good bathing sensation as it is completely soluble in water and reduces unpleasant odors.

INSTRUCTIONS FOR USE

Pour the necessary dose of product in a container with water and evenly distribute over the pool water surface. This product should be added when there are no swimmers in the pool and preferably during the evening.

DOSAGE

Initial Treatment: Add 1 litres of product per 100 m³ of water.

The Initial treatment should be repeated whenever the water does not appear transparent.

Maintenance Treatment: Add 0,25 litres of product for 100 m³ of water every week.

These guideline doses can be changed depending on the characteristics of each swimming pool, weather conditions, etc.
