

# ctx81 EUCALYPTUS ESSENCE SAUNA

## Eucalyptus essence sauna

- Thanks to its ethereal oils and refreshing aromas, it relaxes the bronchial muscles and improves breathing.
- Ideal for saunas.

## PROPERTIES

Appearance	Liquid
Colour	Colourless
pH	5 - 6
Density (20°C)	0,94 – 0,98 g/cm <sup>3</sup>

## CHARACTERISTICS

Product suitable for the scenting of the sauna area, after cleaning and disinfecting. They give off a pleasant smell to eucalyptus, contributing to aiding the relaxation and user breathing.

## DOSAGE AND INSTRUCTIONS FOR USE

Regularly pour a litre of product into the bucket of water inside the sauna, amounting to 1 or 2 capfuls for each litre, so that when water is poured onto the heater, a prompt aroma is produced, complementing that obtained by the slow evaporation of the water from the bucket mixed with the essence.
