

ZODIAC®
a better life

Without doubt
the *quietest* heat
pump on the market.

POWER FORCE

POWER FORCE, the best of Zodiac® technology !

Power Force heat pumps are fitted with **corrosion-resistant titanium condensers, an electronic pressure reducer and an Inverter Fan.**

RELIABLE:
Titanium condensers

Automatic silent mode function

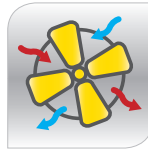

Power Force, among the most silent heat pumps on the market. Acoustic Power: 70.3 dB(A)!

Operate in all seasons

Generate heat at extremely low temperatures (down to -12°C).

'Intensive',
frost protection,
by cycle inversion

Reversible: can be used to cool the pool in summer

Priority Heating function

Power Force heat pumps force filtration to start up to maintain the set temperature. This function therefore optimizes filtration time.

Environmentally-friendly R410A cooling fluid

Power Force is one of the only heat pumps on the market to be certified to the French NF standard!

Option

As an option, the remote control module.

- Private or public in-ground pools
- Pool volume: up to 200 m³ (heat pump for large pools)
- Installation: outdoor
- Power: 28 and 37 kW (conditions: Air 15°C / Water 26° / Relative Humidity 70%)
- Electricity supply: 3-phase (400 V / 3 N / 50 Hz)
- Performance ratio: from 4.9 to 5.1
- Made in France

ZODIAC®
a better life

Without doubt
the most powerful
range of swimming
pool heat pumps!

OPTIPAC

**OPTIPAC,
a highly technological
range of heat pumps!**

RELIABLE:
Titanium condensers

Fitted with **corrosion-resistant titanium condensers** and a Scroll compressor.

'Intensive' frost protection, by cycle inversion

Operate in all seasons

Generate heat at extremely low temperatures (down to -8°C).

Priority Heating function

Starts filtration to maintain the set temperature.

Environmentally-friendly R407C cooling fluid

Corrosion-resistant casing

- Private or public in-ground pools
- Pool volume: over 200 m³ (heat pump for large pools)
- Installation: outdoor
- Power: 45 and 90 kW (conditions: Air 15°C / Water 24° / Relative Humidity 70%)
- Electricity supply: 3-phase (400 V / 3 N / 50 Hz)
- Performance ratio: 3.2
- Made in France
