

SPLASHER

Automatic Pool Cleaner

Available now

The Splasher Automatic Pool Cleaner has a technologically advanced diaphragm to improve life and use as well as a swinging float arm for improved agility.

The tough exterior was designed with hard work and tough use in mind. A UV-stabilized hose makes the Splasher durable yet attractive and can withstand intense sunlight.

The Splasher has an aerodynamic design aiding in removing dirt, debris, bugs, twigs and sand as well as an easy out jogger helping the Splasher navigate through difficult corners.

The Splasher is easy to use and quick to install and requires low maintenance making it the best choice in automatic pool cleaners .

code: 66281
