## OV 5300 SW

VORTEX™ 4WD

### 1 PATENTED CYCLONE SUCTION

Zodiac® engineers have created the first **Cyclonic suction** pool cleaners: the flow is keeping debris in suspension inside the filter and allows a **longer lasting suction** while limiting the clogging.

### 2 ALL-TERRAIN AGILITY

Its **4-wheel drive** allows the OV 5300 SW to move with agility in even the most challenging pools. **It crosses obstacles in the pool with ease and adapts perfectly to all surface types.**

### 3 HIGH SUCTION CAPACITY

The OV 5300 SW robotic cleaner guarantees perfect large-scale cleaning. **With its extra wide suction inlet** and its high-capacity 5 L filter, it can suck up and store all types of debris including big debris for maximum user comfort.

## SPECIFICATIONS
