RECOMMENDATIONS FOR THE TREATMENT OF YOUR POOL

Cloudy Water

Is your pool cloudy? The most common symptoms of cloudy water are algae development or poor filtration. Cloudiness is a result of the presence of small particles in the water that are not easily filtered or removed by oxidation.

Solution

- **Poor Filtration:** Check filter operation and clean filter.
- **Algae development:** If you notice algae in your pool complete the following two steps:
 1. Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus" at least one hour before shocking.
 2. Shock treat your pool (see Algae section).

Algae

Algae in a pool may cause cloudy water, slippery pool surfaces, filter blockage and excessive chemical consumption. Algae can occur due to poor circulation, poor filtration, improper chemical maintenance, or poor housekeeping and environment. Algae do not cause disease, but their presence is not inviting to swimmers.

- **Green algae** - Clings to the walls and floats freely, making the water cloudy.
- **Mustard algae** - Clings to walls, leaving the water clear unless it is physically disturbed. When brushed, mustard algae appears to be a fine brown powder.
- **Black algae** - Clings to walls and is very difficult to remove.

Solution

- Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus" at least one hour before shocking.
- Shock treat your pool with "Dichlorine Granules and Liquid Flocculant"
- Brush walls vigorously.
- Run filter for 24-hours or until water clears.
- Brush the walls and floor of the swimming pool vigorously.
- Vacuum.
- Add an algaecide.

Discoloured Water

Discoloured Water

Algae growth (green colour), excess copper (blue colour), excess iron (yellow/brown colour) or excess manganese (black colour), are possible causes of discoloured water.

Solution

- Opaque, green coloured water (algae growth): See Algae section.
- Blue/brown/black coloured water (excess copper / iron / manganese):
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus" at least one hour before shocking.
 - Shock treat your pool with "Dichlorine Granules and Liquid Flocculant".
 - Brush walls vigorously.
 - Run filter for 24-hours or until water clears.
 - Brush the walls and floor of the swimming pool vigorously.
 - Vacuum.
 - Add "Super Scale Remover".

Corrosion of Metal Parts

Corrosion of Metal Parts

Rust is a fact that you have corrosion of metal parts. Causes may include low pH or low calcium hardness.

Solution

- Low pH: Raise pH in the range of 7.2 - 7.6 with "pH Plus".
- Low Calcium Hardness: Raise calcium hardness with "Hardness increaser".

RECOMMENDATIONS FOR THE TREATMENT OF YOUR POOL

Scale

You know there is scale in your pool if there are white chalky deposits appearing on pool walls and fixtures. It can result in rough pool wall surfaces and reduced circulation flow. Scale can occur if the water's pH level is too high.

Solution

- **High pH:** Lower pH in the range of 7.2 - 7.6 with "pH Minor".
- Add "Scale Remover".

Foaming

Foamy water is a result of build-up of body oils, lotions, deodorants, and cosmetics.

Solution

- Use Defoamer

Chlorine Odour

Chlorine odour

Smelling chlorine when you are swimming is a common symptom of: a pH imbalance, a high presence of combined chlorine (chloramines) or excess total chlorine in the water.

Solution

- **pH imbalance:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus".
- **High presence of combined chlorine:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus" at least one hour before shocking.
 - Shock treat your pool with "Dichlorine Granules".
- **High Total Chlorine:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus".
 - Remove excess chlorine with "Chlorine Neutraliser".

Eye and Skin Irritation

Eye and Skin Irritation

Have you ever tried to open your eyes under water and they immediately began to burn, or you experienced itchy skin? You may have assumed that too much chlorine was the cause when in actuality it was due to imbalanced pH or low free available chlorine. This is why it's important to keep your water balanced to ensure optimal swimmer's comfort.

Solution

- **pH imbalance:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus".
- **High presence of combined chlorine:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus" at least one hour before shocking.
 - Shock treat your pool with "Dichlorine Granules".
- **High Total Chlorine:**
 - Adjust pH into the range of 7.2 - 7.6 with "pH Minor" or "pH Plus".
 - Remove excess chlorine with "Chlorine Neutraliser".

REGULATORS

Solid pH Minor

Solid pH reducer. To maintain pH between 7.2 and 7.6.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1,5 kg	11384	12	19,5	0,025	A04
8 kg	11385	4	33,5	0,047	A04
16 kg	16540	2	34,3	0,054	A04
40 kg	11974	1	41,5	0,062	A04

Solid pH Plus

Solid pH increaser. To maintain pH between 7.2 and 7.6.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	16538	12	13,5	0,020	A04

25 kg	16539	2	26,6	0,054	A04

Hypochlorine Granules

Calcium hypochlorine granules with 70% available chlorine.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
25 kg	15982	1	26,4	0,062	A08

CHLORINE-BASED MULTIFUNCTIONAL DISINFECTANTS

Action 10

New multifunctional 200 g tablets that perform the following 10 actions: Disinfectant, algaecide, bactericide, algaestatic, virucidal, fungicidal, flocculant-coagulant, pH level reduction, stabiliser, and water softener.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	25322	4	22,1	0,053	A08
10 kg	25323	2	22,2	0,042	A08

Multifunctional Tablet

Slow-dissolving tablets - 500 g with an algaecide, bactericide and flocculant action. Comes in an individual film.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	25316	4	22,1	0,053	A08
25 kg	25355	1	26,4	0,047	A08

Duralong

All-in-one swimming pool treatment with a bactericide, algaecide and flocculant action. Comes with a floating dispenser.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
2 kg	16563	6	13,4	0,049	A04

Multifunctional Granular

Bactericidal, algaecide and flocculant granules.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	15984	4	22,1	0,053	A08
30 kg	15985	1	31,4	0,047	A08

Multiactional Tablets - 200g

Slow-dissolving tablets - 200 g with a bactericidal, algaecide and flocculant action.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	25319	12	14,5	0,032	A08

25 kg	25321	1	26,2	0,040	A08

CHLORINE-BASED MULTIFUNCTIONAL DISINFECTANTS

Multifunctional Tablet Specially Designed for Hard Water

Solid compound in tablet format, specially formulated so that a single application of the product to the pool water will kill all bacteria, viruses and other microorganisms; prevents algae growth; maintains clean and clear water and avoids scale build up.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	40935	12	14,5	0,032	A08
5 kg	40936	4	22,1	0,053	A08
10 kg	40937	2	22,2	0,042	A08
25 kg	40938	1	26,2	0,047	A08

Multifunctional Tablets - 250g

Solid compound in tablet format, specially formulated so that a single application of the product to the pool water will kill all bacteria, viruses and other microorganisms; prevents algae growth and maintains clean and clear water.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	34439	4	22,1	0,053	A08
10 kg	34440	1	26,2	0,047	A08

Tripex-20 Specially Designed for Cartridge Filters

Solid compound in tablet format, specially formulated so that a single application of the product to the pool water will kill all bacteria, viruses and other microorganisms; prevents algae growth and maintains clean and clear water.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	41075	12	14,5	0,032	A08
5 kg	41076	4	22,1	0,053	A08
25 kg	41078	1	26,2	0,047	A08

BROMINE DISINFECTION

Hypochlorine Granules

Slow dissolving bromine tablets - 20 g for continuous disinfection of pool water and spas. No chlorine smell. High pH tolerance. Superior disinfecting and oxidizing power.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	16550	5	22,1	0,050	A08
20 kg	28740	1	21,1	0,027	A08

ACTIVE OXYGEN DISINFECTANTS (CHLORINE FREE)

Oxy-Active Liquid

All-in-one active oxygen-based product that sanitizes private swimming pools without using chlorine, thus preventing the formation of algae and keeping the water clear. Manual or automatic dosing using a dosing pump.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	18714	4	25,4	0,033	A08

Oxy-Active Liquid Tablets

Active oxygen tablets - 100 g for continuous disinfection of private pools. Chlorine free.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	15978	12	13,5	0,027	A08
6 kg	15979	4	25,7	0,049	A08

Microbid

Algaecide for active oxygen disinfection. No foam. Micro-flocculant.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	15991	4	24,1	0,033	A08

Oximines

Non-chlorine granulated product for shock treatment and chloramine eradication. After shock treatment, allow 15 minutes before bathing.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	11433	4	21,2	0,048	A08
30 kg	11434	1	31,4	0,062	A08

ALGAECIDES

Algaecide

To prevent the formation of algae.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	11416	12	13,5	0,025	A04
5 L	11417	4	22,4	0,033	A04
25 L	11418	1	26,2	0,028	A04

Brightening Algaecide

With strong bactericidal, algaecide and fungicidal power.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	11413	12	13,6	0,025	A04
5 L	11414	4	21,5	0,033	A04
25 L	11415	1	26,5	0,028	A04

Concentrated Algaecide

To prevent the formation and growth of algae.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	11419	12	13,5	0,025	A04
5 L	11420	4	21,6	0,033	A04
25 L	11421	1	26,3	0,028	A04

Extra Algaecide

Highly efficient, non-foaming algaecide combined with a flocculant action.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	11423	4	22,0	0,033	A04
25 L	11424	1	27,1	0,028	A04
5 L	24616	4	21,2	0,033	A04

Special Algaecide for Covered Pools

Double-action, non-foaming liquid treatment for private pool water and/or covered heated pools. Specially formulated to prevent and eradicate algae, and to reduce and remove the smell produced by chlorine in combination with the nitrogenous organic matter present in the pool water. Chlorine and Active Oxygen act as "activating agents" that help reduce the chloramines present in the water, thus eliminating the "unpleasant" smell of chlorine as well as eye irritation.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	41079	12	13,6	0,023	A04
5 L	41080	4	21,2	0,033	A04
25 L	41081	1	27,1	0,028	A04

FLOCCULANTS

Liquid Flocculant

Clarifies the water, eliminating the colloidal particles that cause the water to be cloudy.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	11387	12	15,9	0,023	A04
5 L	11388	4	25,4	0,033	A04
25 L	11389	1	31,3	0,028	A04
5 L	24618	4	25,4	0,033	A04

Flocculant cartridge
(in a macroperforated plastic film)

Solid Flocculant

Continuous flocculation helps ensure crystal clear water.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
-	11390	14	16,0	0,019	A04

Double-Action Clarifying Cartridges

A smart product that combines rapid flocculation with continuous clarification, for increased disinfection power and crystal clear water.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	18725	14	16,5	0,036	A04

Blister pack with 2 tubes of 5
tablets of 20 g each

Claritab Plus

NEW FORMULA. New super concentrated “coagulant” and “flocculant” tablets specially formulated to improve the performance of the sand filter. The slow and controlled release of the tablet removes all suspended particles in the water (metal ions, organic matter, etc.). Save money by using less disinfectant.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 kg	25324	24	6	0,020	A04

CLEANING CHEMICALS

Extra Descaler

Extra strong scale remover. Acid.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	11391	4	23,8	0,033	A04
25 L	11392	1	29,6	0,028	A04

“Special liner pools”

Non-Foaming Edge Cleaner

Specially formulated to remove grease and dirt from swimming pool edges and adjacent areas where needed.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	11426	4	22,6	0,033	A04
25 L	24621	4	22,6	0,033	A04

Special Cleaner for Polyester and Fibre Pools

Removes grease and scale without damaging the equipment.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	16558	4	25,5	0,033	A04

“Special liner pools”

Gelamin

Gel descaler for swimming pool walls and floor. Very efficient. Easy to apply.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	15983	4	22,8	0,033	A04
5 L	24619	4	22,8	0,033	A04

Gel Descaler - Special Floating Line

Powerful liquid descaler that keeps the floating line clean thanks to its degreasing power.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
1 L	40931	12	14,3	0,025	A04
5 L	40932	4	22,8	0,033	A04
25 L	40934	1	28,0	0,028	A04

WINTER CONDITIONERS

Winter Conditioner

Limits the growth of algae and bacteria in the water. Prevents the water from turning green and eliminates scale deposits. Facilitates spring cleaning. Non foaming.

CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE	
5 L	11430	4	24,4	0,033	A04

Copper Free Winter Conditioner

Prevents the decay of water and limits the growth of algae and bacteria. Compatible with all other treatments, including PHMB.

CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE	
5 L	16553	4	24,2	0,033	A04

Inverlong

All-in-one winter treatment for swimming pool water. Prevents the decay of water and growth of algae. Maintains crystal clear water. Includes a bactericidal, algacide and flocculant action. Comes with a floating dispenser.

CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE	
-	16554	6	13,4	0,049	A04

ACCESSORIES

Kit-splash

Children's Pool Kit. Contains 0.5 kg of granulated dichlorine and 0.5 l of concentrated algacide.

CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE	
-	15986	14	17,5	0,044	A04

Liner Repair Kit

1 tube of glue - 20 ml and 2 liner strips. Transparent (PVC).

CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE	
-	24624	50	3,3	0,022	A04

ACCESSORIES

Chlorine Stabiliser

Prevents the rapid destruction of chlorine caused by the sun's ultraviolet rays.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 kg	16495	4	22,1	0,053	A04

Chlorine and Bromine Neutraliser

Removes excess chlorine and residual bromine.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
6 kg	16578	4	26,1	0,048	A04

"Special liner pools"

Super Scale Remover

Super Efficient Scale Remover. Prevents scale formation and mineral deposits. Prevents scale build up in pipes.

	CODE	STANDARD PACKAG.	STANDARD WEIGHT (kg)	STANDARD VOLUME (m ³)	ALPHANUMERIC CODE
5 L	16555	4	28,5	0,033	A04
