

ctx100gr OXYPOOL

Activated oxygen for the disinfection and maintenance of water without chlorine

- Ideal for pools where children or people allergic to chlorine swim.
- Chlorine-free, does not irritate eyes or dry skin.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		100g /10m ³

PROPERTIES

Appearance	Granular solid
Colour	White
pH (1%)	2-3
Solubility at 20°C	250 gr / Lt

CHARACTERISTICS

Water treated with ctx100gr OxyPool does not cause unpleasant odours, does not irritate the eyes, and does not dry out the skin or hair.

When ctx100gr OxyPool is dissolved in water, a strong oxidation is produced capable of eliminating organic matter and existing microorganisms.

INSTRUCTIONS FOR USE

Pour the necessary dose of product equally over the surface of the swimming pool, preferably during the evening and when there are no swimmers in the pool.

DOSAGE

- **Initial treatment:** add 20gr of product to each m³ of water.

The initial treatment will have to be repeated whenever you notice a lack of transparency in the water.

- **Maintenance treatment:** add 10 gr of product to each m³ of water weekly.

These doses are guiding and can be modified according to the swimming pool characteristics, the weather, etc.
