

ULTIMATE POWER

OV 3400

VORTEX™

1 PATENTED CYCLONE SUCTION

Zodiac® engineers have created the first **cyclone suction** pool cleaners. The high-power vortex inside the filter keeps debris in suspension, thereby preventing the filter from blocking and **maintaining cleaning performance**.

2 EASE OF ACCESS AND FILTER CLEANING

The filter can be accessed **from the top of the robot** and is easy to clean, making things simpler for you and meaning **you don't come into contact with the debris**.

3 LARGE SUCTION CAPACITY

The OV 3400 robotic cleaner guarantees perfect large-scale cleaning. **With its extra wide suction inlet** and its high-capacity 5 L filter, it can suck up and store all types of debris.
